## Café Sasso

Cafe Sasso is a quintessentially Bohemian coffee shop in Rochester New York. Owners Peter and Jessica were employees first, before deciding their lives – and livelihoods – would be entwined. They purchased the property and built their dream.

## Jessica:

A barista with over 12 years experience, Jessica has experienced the ins and outs of all things coffee. She manages the books and with a background in interior design, she gave Café Sasso it's distinctly rustic, retro look.

## Peter:

A successful musician who played in coffee shops across the country, Peter met Jessica while performing at the café when it was still run by its previous owner. It was love at first sight and he asked for any job available at the café to get closer to her. Their relationship blossomed and so did his new calling when, after a few months, he was named “Rochester’s Best Barista” for his latte art.
